

OBJECTIVE

Results-driven Data Analyst with expertise in statistical analysis, data visualization, and business intelligence. Seeking to leverage advanced skills in SQL, Python, and Power BI to deliver actionable insights and drive data-informed decision-making in a dynamic organization.

SKILLS

- **Statistical & Data Analysis:** Skilled in applying statistical methods to data analysis, regression analysis, hypothesis testing, and proficient in analyzing large datasets to extract actionable insights.
- **Data Visualization:** Experienced in creating clear and impactful visual representations of data, Skilled in **Tableau, Power BI, Excel**
- **Database Management:** Proficient in **SQL, Python, R.**
- **Data Cleaning and Preprocessing**
- **Research & Writing:** Strong background in research methodologies, academic, and technical writing.
- **Languages:** Fluent in Arabic and English.
- **Soft Skills:** Effective team collaboration, strong communication, problem solving, **decision making.**

PROJECTS

- **Project:** Canadian IT & Analysis Wages 2014-2023
 - **Description:** Conducted a comprehensive analysis of wage trends in the Canadian IT sector from 2014 to 2023. Utilized Excel for data cleaning, manipulation, and initial analysis. Created detailed visualizations and dashboards in Power BI to present insights on wage growth, regional differences, and industry-specific trends. The project provided valuable insights for stakeholders to understand the evolving landscape of IT wages in Canada.

EXPERIENCE

Copywriter and Researcher | Dec. 2023 – Now

- **Almurrassel - Independent Online Magazine | Washington, US**
 - Conducted in-depth research and analysis for various articles at the magazine.
 - Developed compelling content based on research findings.
 - Utilized data visualization tools to enhance the presentation of data in articles.
 - Introduced dashboards on insights from articles using Power BI, helping stakeholders grasp complex information quickly, expediting decision-making and project delivery by 30%.
